

Custom Brokerage

Expertise backed by experience.

Efficient management of customs issues

Yamato has been a C-TPAT certified participant since 2003 (SVI# yamBro 03025, yamCon 03026)

With years of industry experience, Yamato's highly trained professional customs brokers can manage customs issues at both ends of the customer's supply chain. With six brokerage offices strategically located, we can use our remote filing systems with EDI and ABI capabilities to process your shipments and ensure accurate and timely releases with CBP. In addition, as C-TPAT- and AMS-certified providers, we help minimize the risk of cargo delays and cost for non-compliance to government regulatory requirements.

Yamato's capabilities and services include —

- **ABI with ACH Capabilities**
Electronically connected with the CBP systems, ACS and ACE, we serve to speed cargo release for our clients.
- **Remote Location Filing (RLF)**
File RLF entries in all qualified Customs ports from one central location.
- **Post Entry Service**
Our experienced brokers take prompt and appropriate actions to solve problems and errors relevant to Customs entries within the legal time limits.
- **Binding Ruling Requests**
Prepare complete and effective requests for binding rulings and obtain definitive Customs answers.
- **Customs Surety Bond**
Secure the most appropriate and competitive Customs bond; a Single Entry Bond or a Continuous Bond.
