

# Ocean Cargo Forwarding

Cost-effective and convenient

## The leading choice for logistics and transportation services

The Globalization is progressing in today's economy and international logistics are becoming increasingly important for corporations everywhere. To support your business, our cost-effective services include stock advisory and keeping up with overseas transportation trends to ensure that we serve your international transaction needs.

Backed by the full capability of our Non-Vessel Operating Common Carrier System (NVOCC), we take care of handling, and ensure faster transit time while utilizing an accessible tracking system for your convenience. LCL and FCL consignments are available among over 100 cities throughout the world.

We also provide packing and crating, as well as warehouse distribution, inventory management, logistics consulting, pick-and-packs or other services related to logistics and transportations, and multimodal functional transportation. We are highly confident that our experience and expertise will optimize your transportation needs. As your business partner, the Yamato Group is here to support your business.

Our unique "Round Service" courtesy of Fareast is also a well-customized service for all manufacturers focused on importing products from China and other Asian countries. This service will help your production plan schedule run as smoothly as you expected.
