

De Minimis Treatment

End-to-End Logistics • Reliable • Cost Effective

We provide global, end-to-end cross-border e-commerce fulfillment

Direct B2C

Ship each order from overseas straight to the U.S. customer

Strengths:

- Direct to customer—faster delivery
- Fewer handoffs → lower damage/loss risk

Cross-Dock & Inject

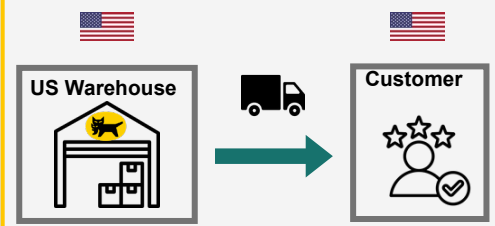

Bulk-import, quick U.S. cross-dock, same-day injection to National and/or Regional Carrier

Strengths:

- Lower cost by bulk transportation
- Clear once, ship many domestically

U.S. Stock & Ship

Bulk-import to a U.S. warehouse to store, ship domestic on order

Strengths:

- Lower cost by bulk transportation
- Fastest delivery after order

After De Minimis: What Changes

Cost & Pricing

- Duties and fees now apply to every shipment
- Postal parcels carry new per-package charges

Policy & Clearance

- Every parcel requires a standard customs declaration and duties settled before delivery

Compliance & Risk

- Customs now expect full product details and a clearly named responsible importer

Shipping Strategy

- Lane choices now have clear trade-offs and returns need documentation

Comparison of Our Services

Direct B2C

Best Fit (Business Model & Scale):

- ✓ E-Commerce (DTC)
- ✓ Low Volume:
~100 Orders per Month

Advantages:

- ✓ Launch fast with no U.S. inventory or warehouse contracts
- ✓ Faster delivery → More customer satisfaction

Cross-Dock & Inject

Best Fit (Business Model & Scale):

- ✓ E-Commerce (DTC)
- ✓ Medium Volume: 300–1,000 Orders per Month

Advantages:

- ✓ Lower cost by bulk transportation
- ✓ Same-day injection to last mile carrier for domestic tracking and predictable ETAs

U.S. Stock & Ship

Best Fit (Business Model & Scale):

- ✓ E-Commerce, Wholesale/B2B, & Amazon FBA replenishment
- ✓ 2000+ Orders per Month

Advantages:

- ✓ Lowest per-order cost at scale
- ✓ Fastest delivery and easier returns

Last Mile Strengths

Cost Optimization

- Low shipping rates
- ML-driven service recommendations

Visibility & Easy Integration

- Real-time tracking
- API-connected shipping platform

Streamlined Shipping Process

- Efficient operations through batch processing
